

IOSH - Health & Safety Decision Makers

E-mail address 9,000

Postal Addresses 20,000

Description/Profile

This file is a compiled list created from a series of telemarketing campaigns. The list was created to drive membership to IOSH (Institution of Occupational Safety & Health). The contacts on this database have the authority to purchase a range of products and services relating to health & safety within their organisation.

These key decision makers work for medium to large companies. Their job titles do vary and span across Health and Safety, HR, Commercial, Proprietor, MD, Facilities, and much more. These corporate executives ensure that their company complies with current health & safety legislation.

NOTE: The contacts on this file are not directly members of the IOSH; it was specifically designed to increase the membership to the IOSH. Therefore a large proportion of these people could now be IOSH members.

This database has been used successfully to recruit buyers of industrial supplies and services, relevant publishers, office supplies, HR offers, corporate gifts and staff incentive offers and more...
