Description/Profile

PWE is the UK's leading magazines for targeting decision makers in the Industrial Maintenance Market.

Since 1981 Plant and Works Engineering (PWE) has reported on the many changes in the manufacturing and commercial sectors, and has been in a unique position to witness the ups and downs of manufacturing.

The magazine's content focuses on just about every aspect of the readership's professional interests and responsibilities. PWE is news-led – keeping readers up-to-date on current issues and trends in their industry as well as informing readers of the latest news and cutting-edge technology from around the globe.

Plant & Works Engineering offers the best value for money when targeting decision makers within the UK industrial maintenance market with a strong circulation that is current and relevant; and reflective of the size of the market.
